OVER A DECADE OF CONSECUTIVE WAGYU SALES

This file is annotated with prices based on recording final price during the sale by Jim Long. Not absolutely guaranteed to be correct since based upon notes taken during the sale

SCHACHER AUCTION SERVICES

Robert Schacher 817-219-0102
PO Box 33804, Fort Worth, Texas 76162
rob@schacherauction.com • www.schacherauction.com

Welcome Wagyu Enthusiasts,

Over the first decade of merchandising Wagyu Cattle, especially for the Texas Wagyu Association, I have learned many things about the breed, and the industry in general. Probably the most important point that has been a driving force is the growing recognition from the public that Wagyu equals high quality, great tasting beef. As breeders, this is not only something to be proud of, but to also give you a bigger target to shoot for in the future. Many of you asked me in the early years, "How do we get recognized as a serious player in the mainstream of the cattle industry?" Well, the answer was always to provide the best tasting, highest quality product on the market. You have accomplished this in spades, and the mainstream is now coming to you!

This year has been a challenge for us all, and we are doing our best to adapt. Due to the current world events, the Texas Wagyu Association has chosen to put this sale online only for the safety and wellness of our colleagues. The Annual Meeting of the Texas Wagyu Association will take place this summer in a virtual setting as well. We encourage all of you to stay healthy and stay safe!

I believe that this offering has a variety of genetics that can contribute to any Wagyu herd in the nation, and I look forward to merchandising this powerful set. If you have any questions, do not hesitate to contact me.

Sincerely,

Robert Schacher

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy your livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's newest way to buy livestock! Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast live on the internet at www.superiorclicktobid.com – just go to the home page and select the auction. Remember, you can call in to bid over the phone when watching on the internet if you have registered for that service, but you must be a member of www.superiorclicktobid.com to "click-to-bid" and bid online. Your computer must have Flash Media Player installed to view the auction.

Bidders who are successful in making purchases will be contacted by Superior Productions after the sale to settle payment and discover your shipping plans.

SmartAuctions

**All semen and embryo lots will sell in a
timed auction hosted by SmartAuctions.

LIVESTOCK MORTALITY INSURANCE:

Livestock Mortality and Theft Insurance is available through StarNet Insurance Company, Robert Schacher, Agent 1859190.

ANNOUNCEMENTS:

All announcements from the auction block will take precedence over any printed material

DELIVERY:

Cattle sell FOB where they are located.

TERMS:

The terms of the sale are cash or bankable check unless arrangements are made prior to the sale. Satisfactory settlement must be made with the clerk of the sale immediately after the close of the sale. Only when the above conditions are met will the buyer be able to load cattle. In no case will animals be released unless settlement is made with the clerk of the sale.

All transactions that include Semen, embryos and flushes are between the buyer and seller. All shipping costs are the buyer's responsibility and at the buyer's expense. Schacher Auction Services will hold proceeds to the sellers of these lots in Escrow until the buyer has taken delivery. Unless otherwise stated there are no guarantees of conception of embryos. Neither Schacher Auction Services nor Members of the Texas Wagyu Association Board of directors (with the exception of board members that are also consignors) will be responsible for storing or delivering embryos or semen.

ERRORS:

The material in this catalog has been carefully edited. If errors or omissions are discovered, they will be announced. Such announcements take precedence over the printed matter in this catalog. Neither the editors of the catalog, the Texas Wagyu Association, the sale management, nor the consignors can assume any responsibility for errors or omissions in the catalog.

RESPONSIBILITY:

The consignor will represent and be responsible for his animals. In no case, however, will the consignor be responsible for any damages beyond the selling price of the animals. The Texas Wagyu Association and the sale manager assumes no responsibility, no warranties and no guarantees on the cattle presented in this sale. All transactions are between the buyer and seller.

INTERNET BIDDING:

This auction will be broadcast live at www.superiorclicktobid.com.

Anybody wishing to bid online must sign-up prior to the auction.

#1 SRI Bull in the USA! SELLS!!

G436 is offered on behalf of Ranger Cattle and HP Wagyu (Australia), G436 is the highest SRI (Self Replacing Index) bull in the country and also the first son of Mayura L0010 to be born on US soil. G436's sire is Mayura L0010, L0010 is the highest SRI bull sired by the legendary and breed leading Itoshigenami jnr. Mayura L10 has incredible genomic ebv's which he has passed on to G436. G436's dam is backed by a strong maternal line going back to Lone Mountain Ranch breeding. The maternal sister to G436's dam has performed well in the LMR program having produced two carcasses, one by mitchifuku with 47% IMF and the other by LMR Shichiro 2403Z with 37% IMF. Carcass quality and growth are stamped into this bull. This is especially evident in his leading and balanced genomic EBV's. G436 is tested free of all recessives. The seller reserves the right to collect 500 units of semen at the convenience of the buyer at an agreeable time. Potential carcass data will be available to the buyer. Unique opportunity to access carcass data from an established wagyu beef operation (Ranger Cattle) processing around 30 carcasses per month.

M6 Prelude Pld 968G is a heterozygous POLLED herd sire prospect! He is the second Maquarie Prelude M0495 son to be offered in America. Prelude is a top carcass and growth sire. He is the #1 top selling A.I. beef bull in Australia of ANY breed! 968G is stout, well-made and has extra eye-appeal. His dam, 774E, is the 2019 TWA Sale high selling bred heifer and now a featured donor for Branson Wagyu. His Dam is also a maternal sister to the \$10,000 M6 Grow & Grade 710E herd sire prospect that was selected Grand Champion Fullblood Bull at the 2019 Louisville show and Res. Grand Champion at the Denver show. 968G has impressive EBV's for Marbling, Growth, and Milk while delivering the important polled gene. Tremendous opportunity to be on the cutting edge of improvement for all the relative economic traits. He is free of all genetic disorders.

Sells open and ready to flush or breed. Last flushed 3-18-20 and produced 15 high quality conventional embryos.

Y09 is a very heavy milking **Michifuku** cow! She may be the best carcass cow at the M6 Ranch. She ranks in the top 1-10% for EMA-EBV, Marbling-EBV and Marbling Finess-EBV. She is a big cow and all of her calves have lots of grow. **Michifuku**, **Itozura Doi**, **Itoshigenami** and the **Hikokura** maternal cow line is as good as it gets. **Y09's** maternal line goes back to the **Ezokintou** cow. **Mayura Itoshigenami Jr**, "King of Wagyu beef" is also a maternal descendent of the **Ezokintou** cow. This female offers a special opportunity to have access to arguably the best carcass cow family in the Wagyu breed. **Y09** is free of genetic disorders.

This heifer competed in the Houston Livestock Show this year and received 3rd place. This heifer has a great pedigree. On the sire side, this includes Shigeshigetani, Michifuku, Suzutani, Haruki 2, and Fukutsuru. Shigeshigetani has some of the most powerful genetics in the Wagyu breed blended together in one impressive pedigree. This pedigree shows true in this heifer, with an ultrasound marbling score of 6.83 at 18 months she is on her way to the same results. On the dam side TF Itomichi 1/2, Takazakura and Fukutsuru. TF Itomichi 1/2 genetics are widely used for producing consistently large quality carcasses, increased milking abilities, mature size and growth rate without reducing marbling. Pasture exposed to MG Kitaguni 7114E bull (FB33383) from 12/01/2019 to 1/31/2020 and confirmed bred by veterinarian palpation. This bull is a son of World K's Kitaguni Jr. with TF Itomichi 1/2 and World K's Michifuku on the dam side. This heifer is located in the Texas Hill Country with several shipping options available.

Zekoru 138A is a rare pedigree female, on her paternal side Itozuru Doi (FB3685) known for his balance of Shimane, Kedaka, Tajiri, and Tajima lineage, all known for higher marbling. Her great- grandsire maternal side Hirashigetayasu (FB670) has a reputation for outstanding growth.
 Hirashigetayasu (FB670) is a son of Dai 20 Hirashige who Professor Kenichi Ono called the "Elite of the Elite", and one of the most significant bull, amongst the highest EBV's for growth and milk from the Kedaka line. Zekaoru 62J-138A, an outstanding Female with top-notch markers for marbling. Ribeye area 10.02, 8.30% IMF on ultrasound scan. This cow tests free of all genetic defects, scored a 5 on Tenderness, AA in SCD, and has a 3% inbreeding coefficient. Cow has been pastures exposed to FB30189-AA/9.

SCD: TEND: **CL16C**

Sired by one of only three direct descendants of what is considered by many as the best Wagyu bull in Japan, Yasufuku J930, her sire Kousyun is proving to outperform Yasufuku JR in growth and performance, yet pass the same excellent carcass traits. Her dam was bred by Ohio Wagyu and their main Herd Sire LMR Fukutsuru 729T who a high performance bull with a mature weight of 2,200 lbs. Her dam also goes back to two Bar R cows, 51N and mother 51J who both produced well into their teens.

Ms Kousyun is showing the frame and growth of her dam. She is confirmed bred to our heavy Kedaka/Tottori line bull Tatuso FB40811. This is the kind of pairing you see throughout the Kyushu region in Japan. In fact, the 2012 Zenkyo carcass winner came from Nagasaki and the breeding was Kedaka x Yasufuku x Kedaka. This is great opportunity to get both Yasufuku genetics and a calf that will have great balance of carcass performance and improved maternal abilities. Shipping responsibility of the buyer. Located in Carson, VA

What really stands out about, **M6 Ms Itomoritaka 920G**, is her big top with extra muscle shape from end to end. She is also extremely attractive with more body depth and spring of rib. **920G** will be a heavy milker. Her dam was the heaviest milking 2-year-old of her contemporary group and her maternal granddam is "**Miss America**" **167** who's offspring always milk well. The meat companies say that big rib eyes with more shape are the "hidden treasure" in Wagyu carcasses because they add a lot more value. **920G** certainly delivers value added genetics. She is free of all genetics disorders.

LRX 10F is sired by the rarest original foundation bull, Kenhanafuji (FB2461), often called the "International Bull of Mystery". Kenhanafuji is one of the highest selling Wagyu bulls of all time and is sired by foundation bull Itohana (FB504) and his dam is Hana Fuji (FB563). Itohana is a zero Tajima Fujiyoshi linebred Dai 7 Itozakura son, one of Dai 7 Itozakura's highest marbling sons in Japan. Because of his sire and dam, his progeny should have large frame and outstanding meat quality. On the dam side we have an all-star of foundation animals including grandsire, Mazda and sire World K's Kitaguni Jr who rates tops in many sire summaries. WKS Kitaguni Jr is also a grandson of Dai 7 Itozakura. This combination should produce fertile calves that are good milkers. Don't miss this opportunity to acquire a direct son of Kenhanafuji!

3 Female sexed, grade 1, conventionally produced embryos
 KDW 404 (FB9643) Also referred to as Mazda 404, is a bull we used at the recommendation of Mike Kerby. He visited with Kenneth Briggs, former President of AWA, and he said this was the number one marbling bull he produced. Mazda 404 has been used in F1 production for a long time and semen is still being sold through Sexing Technologies. Mr. Kerby said the offspring make big animals and he really likes them.
 Rowe 151X 068 combines 151, Suzantani, 068, Takazakura and Itomichi. She is also AA/10!! In our opinion these embryos represent some of the best in the Wagyu World. Both parents have tested B3F, CHSF, CL16F, F11F.

Laura, 99W is one of the truly elite Shigeshigetani daughters as she descends from the highly proven, original import female, Otutani. She traces directly to Otutani through breeds greats Shigeshigetani, Michifuku and Haruki II. The mating is with Hirashigetayasu 001 who was sired by DAI 20 Hirashige J287. His maternal great grandsire is the distinguished Tajiri-line Tayasudo. His lineage shows strong propensity for growth and balance with a larger frame. Females have very good maternal traits and milk very well. Carcasses from his offspring consistently grade on the high end but the marbling has a tendency to be moderately course. This is another sire preferred for producing breeding females. Laura tested SCD VA, 4 tenderness and Hirashigetayasu tested SCD AA, 4 tenderness.

SIRE:
DAM: AA/3

J Brand Wagyu is excited to offer 3 Conventional Flush embryos resulting from the combination of the biggest names in the industry. The sire is the ORIGINAL Itozurudo TF 151. Semen from Doi 151 is almost non-existent at this point and this truly could be one of the last opportunities to add these amazing genetics to your herd. If that wasn't enough, we have combined Doi 151 semen with the genetics of the amazing Sanjiro 3 (FB2900), the highest-ranking carcass and marbling bull in the 2017 National Wagyu Sire Summary. Itozurudo TF151 has an extremely big frame, weighing 2,420 lbs. and carries early maturing traits and produce great fullblood mothers with excellent milk. He is also the best marbling bull of the Fujiyoshi bloodlines, anecdotally. By the time his progeny was tested, and his value was discovered, Itozurudo TF151 was deceased, leaving a very limited supply of semen. Straws have sold for \$9,000 per straw. BREEDPLAN figures for Itozurudo TF151 attest his immense regard: he is a Trait Leader and in the top 2-3% milking EBV (+8). He is in the top 1% for Marbling Fineness EBV (+0.55). Itozurudo TF151 is a carrier of F11, but free from all remaining known Wagyu genetic defects. Sanjiro 3 (FB2900) is a full brother to the original Sanjiro and the highest-ranking carcass and marbling bull in the entire Wagyu breed, according to the 2017 National Wagyu Sire Summary. Like the original Sanjiro, this bull was sired by Michifuku and born to dam Suzutani. Suzutani's influence of the Wagyu breed is legendary. This coupled with the fact that Sanjiro 3's semen is rare, makes him a much sought after sire. In fact, the demand for Sanjiro 3 is starting to even surpass that of this brother! To make things even more attractive, the bottom of the Dam's side is none other than CHR Ms Itozuru Doi 367, bringing additional influences from Itozuru Doi and World K's Sanjiro. Embryos are conventional flush and are stored at TransOva. These embryos are eligible for export. Don't miss this rare opportunity to add these outstanding genetics to your program.

SIRE:
DAM:

Great line breeding opportunity of the carcass King, Itozuru Doi TF151. We have paired a heifer we really like from our Mochiko cow with MFC Itosuru Doi 8-2. The TF151/CF500 family has a great reputation in all facets important to Wagyu breeders. In fact when bred with the 729T line from Ohio Wagyu, the results were just spectacular. Just look at the pictures of a similarly bred animal to the dam in this pairing. We decided to match her with another great carcass producer which happens to be another TF151/CF500 bull. Our goal is simple, to increase the potential for even more consistency when it comes to growth & amazing carcass quality.
 FB9777 CHR MS Itozuru Doi 364 was unfortunately miss-named at registration. He is though a bull, and a stud beef producer at that! His females also produce great growing calves, similar to his sire TF 151 Itozuru Doi. David Morgan at Blue Herron Farms told me 364 had the fastest growing calves and was the best marbling bull he had used for his wagyu/cross herd. David loved his 364 females and eventually had to swap out bulls for a breeding season. I saw 364 at the Blue Herron dispersal and I am still kicking myself for not buying him. He had literally just come off winter breeding and looked great at just under 1,600 lbs. That would have put him about 1,800 - 1,900 on a regular day. I was fortunate to get a few straws from the limited amount collected and am using it wisely.
 The dam FB45547 ABE MS Itozuru Doi 17F is carrier free & comes from a great maternal line. 17F is going to be a large framed wagyu cow when she reaches full maturity, like her dam Mochiko, & grand dam 51N. 51N is still active and bred back at 17 years of age, her dam 51J was also active into her late teens. Longevity and continuous calf producers are wonderful traits for any herd.
 5 Grade 1 conventionally flushed embryos. Will guarantee 2 pregnancy if implanted by a certified embryologist. Shipping is the responsibility of the buyer. Located at Southside Large Animal Clinic, Gretna, VA. Calves will be Carrier Free by pedigrees.

IF ITOMICHI 1-2

TF Itomichi 1/2 comes from the famed Takeda Farms breeding program. I have been impressed with the docility, muscularity and structure TF Itomichi 1-2 has put in his progeny. I estimate his full blood pedigree to be 13% Tajima, 2% Kedaka, 0% Tuttori, 0% Itozakura, 85% Shimane, 0% Okayama and 0% other. This lot is 15 straws of semen stored at Agrimark Genetics in Kingsbury, Texas.
