#### "BREED CODES":

F1W - 1/2 Wagyu genetics

F1WA - 1/2 Wagyu genetics out of a registered Red Wagyu dam

F2W - 3/4 Wagyu genetics

F3W - 7/8 Wagyu genetics

FBB - 100% fullblood Wagyu genetics

FBXB - 100% fullblood Wagyu genetics, mix of black and red genetics with a black hide

FBXR - 100% fullblood Wagyu genetics, mix of black and red genetics with a red hide

HPW - greater than 7/8 Wagyu genetics

PBXB registered purebred Wagyu, most with 98%+ Wagyu genetics

\* For those animals showing "Exposed" in the "Current Breeding Note" column, the expected calving due date is based upon an expectation that the animal was bred via natural service 30 days following exposure to the bull group. Prior to any sale, all animals will be pregnancy checked by a licensed veterinarian and if the confirmed pregnancy expected due date is later compared to shown on this list the "\$PREG" value imbedded within the animal price will be adjusted accordingly.
